

STANDARD PNEUMATIC CIRCUIT BOARDS

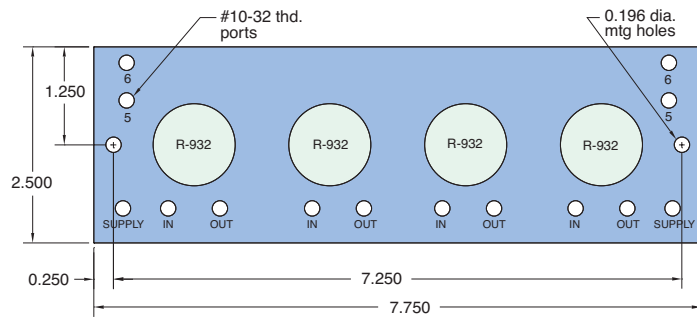

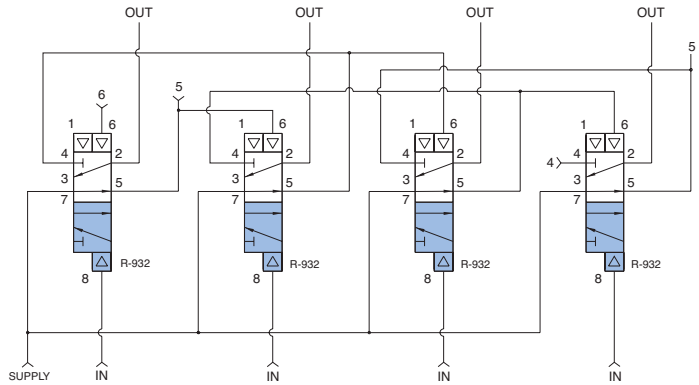

CM-035

Circuit Board for R-932 Sequencing System
Using 4 Modular Valves

Size: 7 3/4" x 2 1/2" x 13/16" thick -
4 modules

Use: 4-valve sequence circuit board used as an expansion unit. #10-32 port connections provided for signal inputs, step outputs, supply and jumper connections for linking multiple boards together. May serve as final segment of circuit or be inserted between other sequencing circuit board.

CM-036

2-Valve Mounting Subplate with 1/8" Ports

Size: 7" x 3" x 5/8" thick - 2 modules
